MATSON COMPLETES SEATTLE LINE PLANS WATER FAMINE ON HIGH LEVELS

Aeroplane Flyer Dead

GOULOGNE, Sept. 22.—Captain Ferber of the army was killed here today by the falling of an aeroplane in which he was making a flight.

Great Fleet At New York

NEW YORK, Sept. 22.—The Atlantic fleet arrived in the harbor today. The ships were received with the usual official functions, and crowds massed themselves on the shores to witness the great fleet of merchant and war vessels.

SPILNER RIOTS BY HIMSELF

After testifying as one of the star witnesses of the prosecution in the riot case now on at the court house, August Spilner this morning found himself in the tanks of the receiving station for indulging in an individual riot of his own. The same was directed against the person of Ah Chong, who swore out a complaint against him and had him arrested. The arrest was made by Deputy Sheriff Fernandez at Ewa, where the assault is alleged to have been committed.

Chung Hoo Man is another "punch" to be looked up for too much strenuousness in the assault and battery line having attacked and threatened to kill Hoo Fat, a countryman. The complaining witness is a rice planter of Kauai.

TAKEN BY TYPHOID

Charles Alapai, brother-in-law of Mayor Fern, died this morning after a short illness of typhoid fever. He was employed as an engineer by Road Supervisor Wilson, who considered him a very valuable man. Death resulted indirectly from Mr. Alapai chilling after a bath in the surf at Molo-kai recently. He contracted a cold, and rapidly grew worse. He was married but a few weeks ago, and his young wife is heartbroken over her untimely loss.

HELENE GOING TO MAINLAND FOR REPAIRS

Local Rules Are Cause
Of Repairing In
San Francisco

WILL CARRY COAL FOR ROUND TRIP

Another Steamer of Local Service
May Be Sent to the Golden
Gate City for General Over-
hauling.

The L.J. S. N. steamer Helene to-morrow starts for San Francisco under the pilotage of Captain Nelson to undergo a general overhauling. Numerous rumors have been afloat as to why the boat is being sent back to the coast for repairs that have been done here before but as Mr. McLean, acting head of the Inter-Island Steam Navigation Company, could not be found this morning, none could be verified.

The most persistent rumour from steamship sources lays the blame on Union rules in force among employees of the Honolulu Iron Works as laid down by the Brotherhood of Boiler-makers, and conveys the idea that they caused terms to be made that were unacceptable to the steamship company. Mr. Kennedy departed for the coast on the Mongolia and will doubtless make arrangements there for the repair of the vessel.

It was stated this morning that the repairs necessary for the boat could be made here but that there are no men. As the big U. S. S. Colorado is being thoroughly overhauled by local labor and important repairs being made to her machinery this seems improbable.

The plans for sending the Inter-Island steamer across have been considered. (Continued on Page 2)

APPOINTS SPENCER

Governor Frear this morning announced the appointment of Samuel Spencer as a member of the Board of License Commissioners of the County of Hawaii in the vacancy created by the resignation of A. W. Carter.

The vacancy on the Commission of Public Instruction, through the resignation of Mr. Judd, has not yet been filled, but it is believed that a successor will be appointed within the course of the week.

Seattle To Honolulu Feb. 1

SEATTLE, Wash., Sept. 22.—An announcement was made here today that beginning with February 1, 1910, the Matson Navigation Company will begin a freight and passenger service between this city and Honolulu. The new steamer Wilhelmina will be put on the Honolulu-San Francisco run, and the Hawaiian and Enterprise will be assigned to the Seattle run on a regular schedule.

Guillotine Three Men

VALENCE, France, Sept. 22.—Three men who had been convicted of atrocious crimes were put to death here today by the guillotine.

MILVERTON SAYS BOARD CONTROLS

Charter Quoted Giving
City and County
Jurisdiction

In regard to the possibility of trouble over the new street ordinance, under the provisions of which all persons and corporations will be in the future required to take out a permit and pay a \$1 fee to dig up the streets, put in poles, conduits, sewers or any other device which will require a hole to be dug, County Attorney Milverton says that there is no doubt but that under the terms of the charter, the city and county have absolute jurisdiction in regard to the streets, notwithstanding the claims of the Territory. "Under a provision in the Organic Act," said Mr. Milverton, "no one in the Territory can grant an exclusive franchise. Some people do not distinguish between a franchise and a license. Persons or corporations desiring to dig up the streets must ask permission of the Board, and pay the fee. In this the City and County have jurisdiction."

SHIPS OF EVERY NATION

(Special Bulletin Cable.)
NEW YORK, Sept. 22.—Admiral von Koester of the Dutch Navy arrived here today to take part in the great Fulton-Hudson celebration. The most remarkable fleet of vessels ever assembled is anchored in the waters of New York harbor and the Hudson in preparation for the great international review that is to be the feature of the celebration. The ship about which the most lively interest centers is the replica of the little vessel in which Henry Hudson sailed into New York harbor and thence up the river that bears his name. Hudson reached Troy Sept. 20, 1609.

Spaniards Win Battle

MADRID, Spain, Sept. 22.—Reports were received here today of a battle in Morocco in which the Moors were defeated by the Spaniards with heavy loss.

COLORADO WILL NOT GO BACK

While the balance of Sebree's crack vessels are making records off Maui, the Colorado is coaling leisurely at Naval Wharf No. 2, and will probably, with the exception of a light consumption finish coaling at Honolulu today. The other vessels will all have to do the stunt over again when they get back.

The Honolulu Iron Works are working on her boilers and giving them a thorough cleaning as well as making needed repairs. Captain C. D. T. Moore stated this morning that as yet nothing had come to light during the overhauling of the boilers that would necessitate the Colorado's return to Mare Island.

British colliers will be awaiting the fleet at Nares Harbor, Admiralty Islands, and the next coaling of the fleet will be done there. The boys find it warm enough work here but it will be only a foretaste to what it will be there, two degrees below the equator, and no one would like the idea of trying for a record.

After choosing New Orleans for the place of next year's meeting, the association of National and State Food and Dairy Departments elected George L. Flanders of Albany, N. Y., president; Dr. W. M. Allen, Raleigh, N. C., secretary, and James Fourst of Harrisburg, Pa., treasurer.

14 Innings And No Result

(Special Bulletin Cable.)
SAN FRANCISCO, Sept. 22.—The National League furnished the sensation in today's baseball result, Cincinnati and Pittsburgh playing a game of fourteen innings, which was finally called on account of darkness, with the score four to four. These teams are making a great contest for fourth place. Philadelphia and Detroit won their games with the tail-enders in the American League. The results of the two leagues follow:

AMERICAN.
New York Chicago postponed on account of rain.
Boston 3, Chicago 1.
Philadelphia 6, St. Louis 2.
Washington 3, Detroit 8.

NATIONAL.
Chicago-Brooklyn postponed on account of rain.
St. Louis 3, New York 4.
St. Louis 4, New York 0. Called in third inning on account of rain.
Pittsburgh 12, Boston 7.
Cincinnati 4, Philadelphia 4. Called in the fourteenth inning on account of darkness.

PUBLIC SCHOOLS ARE OVERCROWDED

Many Children Are
Unable To Be
Admitted

When the final reports for the beginning of the new school year are in the hands of Superintendent of Public Instruction Rabbitt it is believed that it will be found that several hundred children have been turned away from the schools of the Territory because of a lack of accommodation.

The partial returns that are now before the Superintendent of Public Instruction show that the schools of Honolulu with a few exceptions were compelled to refuse admission to more pupils and that as a consequence of the inability of the schools to meet the demands that have been made upon them, children who are entitled to an education will be compelled to go without public school instruction indefinitely. The Department of Public Instruction has done the best it could to meet

HONOLULU FACING SEVERE WATER SHORTAGE

Campbell Declares That
Crisis Is Now
Reached

RESERVOIRS OF NUUANU VALLEY ARE ALL DRY

Prompt Effort to Stop Waste Is De-
clared to Be Only Thing That
Can Prevent Serious Results to
Community.

Honolulu faces a crisis in its water supply, and unless there is an immediate and concerted effort upon the part of the public to prevent all waste, conditions will increase in seriousness with the possibility of lasting injury to the health of the city.

This is the summary of a statement that was made this morning by Superintendent of Public Works Marston Campbell, and he did not attempt to avoid stating that the conditions at the present time cannot but reach an acute stage unless every drop of water that can be saved is prevented from being wasted.

The districts of the city securing their water supply from Nuuanu Valley are also advised to boil all their drinking water, because the water is now at an extremely low level and should be boiled before being used for household purposes.

"The public should realize the seriousness of the situation immediately," said Marston Campbell this morning. "The population of the city has increased with great rapidity of late, and the coming of the Pacific fleet has also proved a heavy drain upon the water supply. The large number of soldiers and civilians that have come in the wake of the Federal Government's activity has increased the permanent population to an extent where the water supply needs to be carefully handled and none of it wasted."

There has been no rainfall of any consequence in the Nuuanu Valley within nearly two months, Campbell stated, and all of the small reservoirs in the valley are empty. It is only the districts on the higher levels of the city that need to be careful as to boiling the drinking water, the larger portion of the city receiving artesian water.

In line with the determination of the Public Works Department to restrict the waste of water through out the city, the meters which this last Legislature authorized to be placed on several pipes at the discretion of the department, are being installed as quickly as received from the East, and it is hoped that they will prove a factor in putting an end to the waste that has helped to bring conditions to their present acute stage.

Children Hear Taft

COLORADO SPRINGS, Sept. 22.—President Taft arrived here at 2:30 this afternoon, making a stay of only an hour. During that time he addressed an assembly of school children representing all the public schools of the city. He then proceeded to Pueblo, where he spent two hours. He will stop at Glenwood and Grand Junction tomorrow.

Minnesota In Mourning

ST. PAUL, Minn., Sept. 22.—The body of the late Governor Johnson has been lying in state at the Capitol building throughout the day. Thousands of people from the city and many outlying towns passed the casket to pay their last tribute of respect.

MAYOR WILL INSPECT BUILDING TRANSFERS

Chinese Huis Report Work
Complete And Put It
Up To County

Mayor Fern, accompanied by Secretary Rivenburgh, County Engineer Gere and Supervisor Quinn, will leave Friday morning for Kalaheo, where they will inspect the transfer of buildings and other property by the Chinese hui from the beach road right-of-way. Attorney Chang Kiol, representing the Chinese, has reported a completion of their contract with the County, and the Mayor will make an inspection of the work done.

When the beach road was surveyed through the Kalaheo district, it was found necessary to have a number of buildings and houses moved to get through the right-of-way. The Chinese hui occupying them with adjacent land were willing to move them providing they were compensated for the work and trouble. A contract was drawn up between the County and the companies, and if the hui have done their work properly, it will be up to the County to fulfill its part of the contract.
